SEETA ANUPRAS – Remedy for Depression

Extract of Geeta is absolutely correct – A man is born according to his past Karmas. Achievements in the materialistic life are the results of not only one Janma but this is the cumulative sum of the past Karmas. Beside past Karma favorable results i.e. material, physical and spiritual gains one may achieve either by his present Kriyamaan Karmas or may be with the blessings of any spiritual soul. Remedial measures in occult sciences such as lucky gemstone, yantra, tantra and so called fengsui items etc. provide only temporary effects and that too when are properly analyzed against commercial exploitation by an expert of occult sciences. Do you think that TV, banner, gurus or media colorful and attractive advertisements of their mass products are justifying with the mass of the sufferers and with the subject as well ? Think with your own brain.

My spiritual guru Sad Shri Adwetacharya ji maharaj of Behraich (India) is running in his 16th physical body. His tremendous knowledge in spiritualism, occultism, mysticism etc. is unique. This is not the matter of discussion or argument, experience yourself and than make your intellectual concepts regarding my verdiction.

Long back ten lines on Shri Seeta ji was given me by Maharaj ji. In 1959 Maharaj ji stayed with Shri Mathlesharan Gupt at Chirgaon, near Jhansi . During three days stay in spiritual environment with him 100 lines on Shri Seeta ji were written not by his physical but eternal soul. Shri Gupt was also astonished, he agreed that in hindi literature this type of poetry have never been appeared or even think of. Unfortunately 90 lines of this unique eternal lines were stolen by one of his intellectual friend, resulting his entire literary life ruined and later he was declared mentally retarded patient. Remaining ten lines were still proved most effective in so called depression, mental stress, hysteric fits, schizophrenics etc. ailments. So called is used because I do not keep these or such other ailments in the category of any disease since these are simply mental attitude which one develop.

If any sufferer is enchanting these ten lines with its correct pronunciation, he may get rid of such type of ailments. Keep this thing in mind that for the favorable results instead of meaning pure pronunciation is essential.

Quote any of the example where these lines are being enchanted and the patient is suffering with depression, anxiety etc. I have number of such clinically bogus examples in my file who were enchanting Seeta Anupras regularly and have become absolutely normal, now they are leading perfect happy and prosperous life.

The depression cases cured by enchanting Seeta Anupras are kept with me and may be seen for your satisfaction
